

JetViewer - the tool that lets people really use the information in their systems

JetViewer, the unique demand driven, web based, data browser and reporting tool, adapts to existing data systems to give a complete, joined up view of your organisation's information.

- ◆ Reduce Costs
- ◆ Improve Business Performance
- ◆ Respond Quickly and Accurately
- ◆ Improve Customer Service

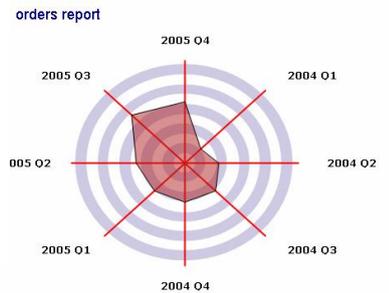

Get your hands on the real facts...
Prove your point
Make decisions
Improve your business

Without requiring any changes to your existing systems, downloads or software add-ins on the client machine, JetViewer gives you secure web access to your information—from wherever you are.

- ◆ Access the information you want when you want it
- ◆ Connect to any ODBC data source
- ◆ Create reports at the touch of a button
- ◆ State of the art AJAX++ technology

JetViewer understands the relationships within your data - presenting information in a **simple** and **intuitive** way.
